

# Youth Voter Movement

## Adult Volunteering

**Our Mission** - *Support the registration and pre-registration of teens (16-19) to vote, encourage high school and college students to register others and inspire everyone to vote. This bipartisan effort is sponsored by the highly respected League of Women Voters. The project is inspired by the numerous students at Marjory Stoneman Douglas High School (and others) whose voices have been silenced.*

**The Youth Voter Movement (YVM) is a student-led movement with adults doing what we can to support them.**

There are many ways for adults to offer support:

- Volunteer at registration drives to help answer questions of registering students
- Complete voter registration training
- Volunteer to support students with the logistics of their drives
- Get the students the materials they need: voting affidavits, wristbands, stickers
- Get the word out to students via schools, organizations, events about the League of Women Voters
- Help students form leadership groups including liaisons with their local League
- Help students build their teams/project plans
- Connect the project to other community organizations
- Support fundraising for wristbands, t-shirts, banners, website, transportation
- Help find good resources for the website
- Help with public relations (press)
- Assist with marketing and social media
- Database developer and manager
- Recruit more volunteers

When a voter registration drive has secured specific dates/times, League liaisons will send an email out to volunteers to help cover shifts (which typically range from 30-150 minutes).

**Volunteering with the YVM project is exciting!** Working to support these highly talented and passionate students is invigorating and refreshing. It also creates a strong sense of future for our country, our children and grandchildren. It is fun be a small part of supporting history in the making. Become part of our team by visiting:
